Disclaimer

This application is just one form of the membership process. Due to user agency requirements, WMSAR runs a criminal background check on all incoming members. The purpose behind this is to reveal any possible felonies, or misdemeanor convictions. As a volunteer agency that works with many public service agencies, we cannot allow applicants with a criminal history to be a part of our team. We also ask for medical background information to allow for the appropriate search assignments for the safety of the member and the search team. All information given and received will be kept strictly confidential. Any question or discrepancies will be handled confidentially.
